Altafla Bill Says:

Personally I have no use for the Democratic rooster; but I'm for them rounders that are to crow under the management of Johnson. He's the well known chicken impresario at Tractoria park durin' the rain. I've told the mass meetin' of towis goin' to be unusually large owing to the nefarious attempt bein' made to make eggs out of hot air for a confidin' population to eat in place of hen fruit. Next thing you know they'll be makin' cow's milk out of slippery silum, er sothin' like that.

HERE TO ESTABLISH COLBY AGENCY

Stephen A. Gavin, General Agent for Colby Motor Company, calls New Mexico Ideal Country for Motorist.

The Colby Motor company of Mason City, Iowa, has selected Albuquerque as the place for its general agency in this section of the country, and Stephen A. Gavin of the Colby company, has arrived in the city to install the agency.

New Mexico is an ideal country for automobiles," said Mr. Gavin today. "The climate nearly all the year round is delightful and permits motoring at times of the year when in other states motor cars are safely locked away in garages because of snow and sleet and impassable roads.

I am glad that New Mexico is awakening to the good roads movement. There isn't anything that will develop the state faster than good roads. It is a mistaken idea that prevails in some places that good roads are for automobilists only and that road improvements are for their benefit. Good roads are good for motorists, to be sure, but they are of more use to the farmer and merchant than to automobilists."

Mr. Gavin will remain in the city for some time explaining the merits of his car to local people.

Ranning up and down stairs, sweeping and bending over making beds will not make a woman healthy or beautiful. She must get out of doors, walk a mile or two every day and take Chamberlain's Tablets to improve her digestion and regulate her bowels. For sale by all druggists.

WELL KNOWN HEAD WAITER DIES

John Cornell, Who Fed Whole Southwest and Did It Well, Passes Away in Topeka.

The eating public and especially the traveling men will learn with regret of the death September 21 at Topeka, Kas., of John Cornell, colored, the cause of death being lung trouble. Cornell was widely known all over the southwest. He was for years head waiter at the Sturges hotel in this city and also served in a similar capacity at the Zeiger place. A little over a year ago he left his job at the Elks club here and went to a hotel at Manitou, Colo., leaving there for Denver when the season closed. He was taken sick and went in Topeka where he improved for a time under the care of his mother. In the spring he suffered a relapse and sank steadily until he died. Cornell was one of the best and most courteous waiters in the business.

COAL MINES RUSHED BY DEMAND

All Collieries in State Worked to Full Capacity But No Shortage Is in Sight Say Coal Men.

Rumors of a coal shortage are based on nothing substantial except the fact that the coal mines all over New Mexico are being rushed to their full capacity to catch up with their orders, according to a local coal dealer who was asked about the matter this morning. "There are no signs of a shortage either of soft or hard coal as far as I am aware," he said, "although the demand is very heavy and the coal mines are behind with their orders."
